

Read the screenplay from the movie Cosmic Portal:

We are the void.
We are time and space.
We are light.
We are energy.
We are matter.
We are atoms.
We are the Universe.

The Universe is constantly unfolding.
Unfolding as matter.
And matter unfolding into life.
Life which is mutation and evolution.
Life that unfolds as instinct.
Life that unfolds as thought.
Thought that imagines the Universe.

We are Life.
We are rhythm and movement.
Diversity.
Words and silence.
We are memories.
Knowledge.
And invention.
We are Earth.

We are the unfolding Universe.
Unfolding as matter,
matter into life,
life into thought.
We are the thought that envisions Tomorrow,
a Tomorrow that is here and now.
